## Product Data Sheet

# XKALIBRE Roof Bedding & Pointing

### Features & Benefits

XKALIBRE 2 in 1 Roof Bedding & Pointing is a flexible, waterproof cement & sand compound with premium grade additives that gives you a better, more flexible, stronger, and waterproof finish.

This product can be used to make bedding and pointing depending on the amount of water mixed with the product.

Included in the bucket is a handy measuring cup.

### Applications

- Roof Bedding
- Roof Pointing
- Ideal for ridge and hip roof tiles

### Packaging

8kg plastic bucket

### Tools required

- 20L bucket
- Power drill
- Mixing paddle
- Trowel
- Gloves and kneepads (recommended)
- Clean water (for clean-up)

### Coverage

#### Bedding

1 bucket = 4 to 6 roof tiles

#### Pointing

1 bucket = 20 linear metres at thickness of 2-5mm

### Storage

Store in a dry area. It is recommended to use the entire contents of the bucket once opened.

### Colours

- Black
- Grey
- Terracotta

### Working time

30 minutes working time. Time may vary depending upon weather conditions.

### Usage

#### Bedding

Add water into bucket gradually (1.5L to 8kg bucket)  
Mix to a stiff consistency

#### Pointing

Add water into bucket gradually (1.6L to 8kg bucket)  
Mix to a required consistency

### Precautions for use

For detailed precautions, please download the SDS from [www.dingocement.com.au](http://www.dingocement.com.au) or call 03 8080 1420.

Read the product label carefully before use.
