PRODUCT DATA SHEET

Version July 2025

FIRE RATED MORTAR

Dingo Fire Rated Mortar is a cement based, rapid setting, ready to mix mortar for high temperature applications.

Key Features

- ✓ Boasting heat resistance capability up to 800°C under AS 1530.1:1994(R2016)
- ✓ Ready to use - just add water
- ✓ Use for new constructions or for patching
- ✓ Initial set 2 hours, Final set 3 hours

Popular Uses

- BBQ's
- Pizza ovens
- Fireplaces
- Chimneys

Directions for use

- Make sure your project is properly laid out with all the necessary tools at hand.
- Pour required amount of Dingo Fire Rated Mortar into a clean bucket. Use contents as soon as possible after opening package.
- Measure water and add gradually until thoroughly mixed. 1 bag requires approximately 1.6 – 1.7L of clean water per 10kg. 10kg of powder yields approximately 6.5L of mortar.
- Initial set 2 hours, Final set 3 hours

Handy Hints

- Mix mechanically for at least 3 minutes with a low speed electric drill with paddle mixer.
- Surfaces should be clean, sound and free from oil, grease and loose particles.

Yield

- 10 kg of powder yields approximately 6 litres of mortar

Safety

RISK

- Mixing Fire Rated Mortar may be irritating to the eyes and skin.
- Prolonged exposure to Fire Rated Mortar may cause dermatitis and alkaline burns.
- Fire Rated Mortar dust is irritating to the eyes and skin and respiratory system.
- Repeated inhalation may increate bronchitis and silicosis.
- Crystaline silica is a known carcinogen.

SAFETY

- Avoid contact with eyes and skin with wet and dry Fire Rated Mortar.
- Wear suitable protective clothing including gloves and eye protection.
- Wear a suitable dust mask when handling cement or concrete, do not breathe in dust.
- Cutting concrete, keep it wet with water to avoid hazardous dust.

FIRST AID

- In the event of skin irritation wash with clean water.
- If dust gets into eyes wash immediately with eye wash solution or clean water.
- If symptoms persist seek medical advice.

MANUAL HANDLING

- This bag contains 10kg net of dry product.
- Manual handling of this bag without due care and attention could result in personal injury.

DANGER

- Causes mild skin irritation.
- May cause respiratory irritation.
- May cause serious eye damage.
- May cause damage to lungs and respiratory problems through prolonged or repeated inhalation.
